

MERCER COUNTY SURGERY CENTER

Patient Procedure Cancellation Notice

Mercer County Surgery Center is privileged to provide quality individualized medical and surgical treatment for our patients in a timely manner. Our medical providers accommodate the needs of patients to schedule surgery which require careful planning and coordination among our office, surgeon, and other medical specialists who may be involved in your care such as the anesthesiologist and surgical team. The cancellation of a scheduled surgery results in failure to serve other patients who are in need to schedule their procedure within a timely manner, as well as, disruption in schedules for other healthcare professionals and the operating room.

We understand situations arise when you may need to cancel your appointment and appreciate advance notice greater than one day should such a situation arise that requires the cancellation of your surgical procedure.

As a respect to all other patients requiring surgical procedures and the multiple medical professionals involved within your care we have assessed a \$250 administrative fee in the event you cancel your procedure within twenty four hours prior to your scheduled procedure. Please understand, this fee is not billable to insurance or reimbursable, and must be paid before we can schedule any further appointments or procedures.

By signing below you are acknowledging that you have read and understand our cancellation policy.
